<p>AM2504.04</p>	<p>GAS BEACON</p> <p>Consider purchasing a gas beacon to make beacon lighting for the VE Day 80th Anniversary easier for volunteers. There is £614.85 unused funds which were earmarked for D-Day 80th and Kings Coronation and are no longer required for the original purpose. This can be reallocated into a new budge heading for 25-26.</i></p> <p><i>NB. It's important to consider the environmental sustainability of this decision: There is little difference between the emissions between burning wood or gas, however this depends on the type of wood and the credentials of the gas cannister supplier. The website does not indicate if the product is made in the UK, neither this nor the sustainability credentials of the supplier are stated clearly, however there are no alternatives suppliers. It would be considered more sustainable to wear out the old iron basket before the purchase or a new item. A condition assessment of the old basket is required.</i></p>
